Source: Lipper, as at 31.01.2025. All performance figures have been calculated net of the Fund Management Charge applicable to the fund.

The fund volatility figure shown is the annualised standard deviation of the monthly returns on the fund over a 3 year time period to 31.01.2025. Standard deviation is a measure of the spread of monthly returns around the average (mean) return. A higher volatility figure indicates that the fund has produced a wider range of returns over the three year period while a fund with a lower volatility figure has been more stable.
